

ENVIRONMENTAL POLICY

KWAL-ADM-POL06

Kenya Wine Agencies Limited is committed to protecting the environment and its surrounding by adopting sustainability initiatives and Climate change mitigation measures in all its business activities based on ISO 14001:2015.

To minimize environmental impacts concerning our activities, products and services, we shall: -

1. Comply with the applicable environmental laws and regulations and other sustainability related commitments to which the company subscribes
2. Incorporate environmental objectives into the company's performance management system
3. Commit to continually improve the environmental management system to enhance our environmental performance.
4. Involve and allow participation of our employees in carrying out periodic environmental risks' assessment and reviews.
5. Develop our product ranges, processes and working practices in consideration of the environmental impacts.
6. Ensure the Environmental Management System is documented, implemented and maintained
7. Apply resource efficiency utilization options when dealing with Environmental Resources while taking practical steps to reduce Environmental Pollution.
8. Participate with stakeholders in initiatives, projects and other activities to drive environmental sustainability initiatives.
9. Communicate to all persons working for or on behalf of the organization, and avail this policy to all the employees and the public
